Ideation & Brainstorming

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

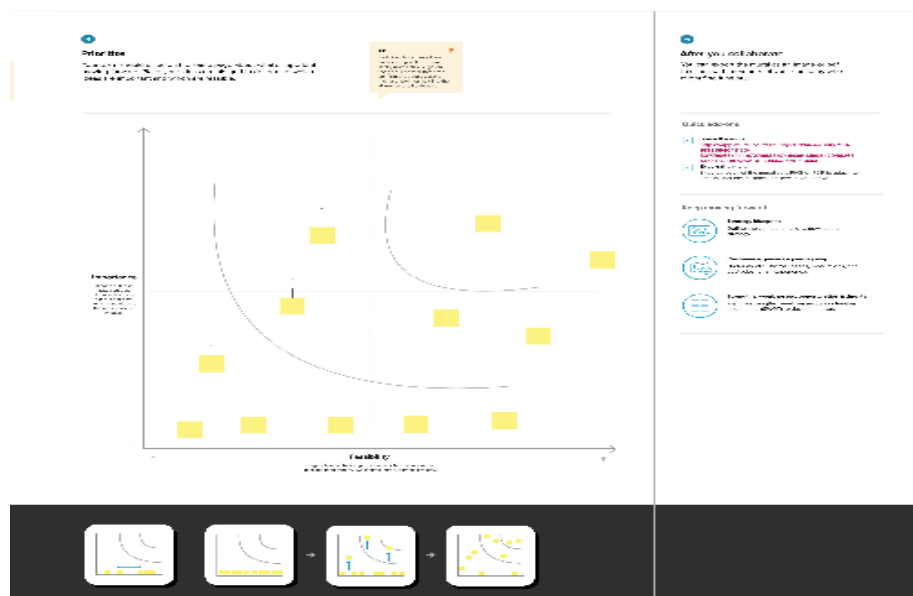

The ideation and brainstorming session aims to explore innovative and practical solutions for a Biometric Security System for a Voting Platform. By considering a range of ideas and evaluating their feasibility, we can lay the groundwork for a secure, user-friendly, and trustworthy voting system.
